(Phone) 307-637-6282 (Fax) 307-637-6366

MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council
From: Mark Christensen, Planner II
Subject: PLN-22-00002 / Future Land Use Plan and Transportation Map Updates
Date: February 28, 2022

Background:

The item for consideration is a **Comprehensive Plan Amendment**. This is approved by **Resolution**.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral 02/28/2022
- Public Services Committee 03/08/2022
- Final Consideration 03/14/2022

Related Items:

- Rezoning (UDC-22-00030)

Planning Commission Recommendation:

The Planning Commission heard this item at their February 22, 2022 meeting and **unanimously** recommended the Governing Body approve this application.

Board of County Commissioners Recommendation:

The item will go before the Board of County Commissioners for comment only. Their comments will be overviewed at the March 8 Public Services Committee meeting.

The Planning Commission Staff report is attached and has not been changed.

Attachments:

1. Resolution
2. Planning Commission Staff Report

RESOLUTION NO. _____

ENTITLED: “A RESOLUTION CERTIFYING PLANNING COMMISSION ACTION AMENDING THE CHEYENNE AREA FUTURE LAND USE PLAN & TRANSPORTATION MAP OF PLANCHEYENNE PLAN TO CHANGE THE LAND USE CATEGORY FROM OPEN SPACE AND PARKS TO COMMUNITY BUSINESS FOR AN AREA OF LAND LOCATED SOUTHWEST OF THE INTERSECTION OF CLEVELAND AVE AND U.S. 30, CORRECT LAND USE CATEGORIES OF LANDS THROUGHOUT THE CITY INADVERTENTLY APPLIED WITH PREVIOUS MAP ADOPTION, MODIFY ROADWAY DESIGNATIONS OF SPECIFIC ROADS THAT INADVERTENTLY APPLIED WITH PREVIOUS MAP ADOPTION, AND MODIFY ROADWAY DESIGNATIONS IN ACCORDANCE WITH PREVIOUSLY APPROVED PLANS.”

WHEREAS, *PlanCheyenne*, as amended by *PlanCheyenne: Reflections and Progress* adopted by the Governing Body of the City of Cheyenne by Resolution No. 5573, is the Master Plan for the City of Cheyenne and the Comprehensive Plan for portions of Laramie County adopted by both the Governing Body of the City of Cheyenne and Laramie County Board of County Commissioners; and

WHEREAS, *Connect 2045: Update to the Master Transportation and Future Land Use Plan of PlanCheyenne* adopted by the Governing Body of the City of Cheyenne by Resolution No. 6106, is the Transportation Master Plan for the City of Cheyenne and the Comprehensive Plan for portions of Laramie County adopted by both the Governing Body of the City of Cheyenne and Laramie County Board of County Commissioners; and

WHEREAS, the Future Land Use Map is illustrated in *Connect 2045* as Map 10 and *PlanCheyenne: Reflections and Progress* as the Future Land Use Map on page 83;

WHEREAS, the intent of the Future Land Use plan is not to predetermine specific land uses for individual parcels or specific locations for uses or facilities, but to provide a general framework for neighborhoods and activity centers organized around roadway networks and major parks and open space; and

WHEREAS, Charles W. Bloom, Director of the Planning and Development Department of Cheyenne, has initiated amendments to the Future Land Use Plan and Transportation map to amend Open Space and Parks to Community Business for an area of land located Southwest of the intersection of Cleveland Avenue and U.S. 30, correct land use categories of lands throughout the City inadvertently applied with previous map adoption, modify roadway designations of specific roads that inadvertently applied with previous map adoption, and modify roadway designations in accordance with previously approved plans, as shown in Attachment A which is comprised of three pages which is attached hereto and incorporated herein; and

WHEREAS, this amendment has been processed in accordance with the procedures outlined in *PlanCheyenne* and Wyoming Statutes § 15-1-503 and § 15-1-505; and

WHEREAS, Plan Amendments approved by the Governing Body pursuant to the criteria set forth on Page 18 of *PlanCheyenne: Reflections and Progress*, as amended; and

WHEREAS, the Laramie County Board of County Commissioners reviewed the proposed future land use map amendment and were given the opportunity to make comments; and

WHEREAS, a public hearing to receive public input and comments on the proposed Future Land Use Plan and Transportation map amendment for the above described property was held before the City of Cheyenne Planning Commission on February 22, 2022 and the Commission approved the proposed Future Land Use Plan and Transportation map amendment; and

WHEREAS, Plan Amendment processes and procedures required by *PlanCheyenne*, as amended, have been followed with regard to the request by Charles W. Bloom to amend the Future Land Use Plan and Transportation map for the above-described properties.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING: that the City of Cheyenne Governing Body hereby certifies Planning Commission action amending the Land Use Plan and Transportation Map for PlanCheyenne as shown in Attachment A.

BE IT FURTHER RESOLVED that the City adopts the Land Use Plan and Transportation Map as the official land use and transportation plans of the City as a supplement to the 2006 Parks and Recreation Master Plan, 2014 Cheyenne Area Master Plan Community Plan, and 2020 Long Range Connect 2045 PlanCheyenne Transportation Update which are collectively referred to as PlanCheyenne.

PRESENTED, READ AND ADOPTED THIS ____ DAY OF _____, 2022.

PATRICK COLLINS, MAYOR

(S E A L)

CITY OF CHEYENNE PLANNING COMMISSION

02/22/2022

STAFF REPORT

FILE: PLN-22-00002: Amendments to the Cheyenne Area Future Land Use Plan & Transportation Map

REQUEST: A request to change the Land Use category from Open Space and Parks to Community Business for an area of land located southwest of the intersection of Cleveland Ave and U.S. 30, correct land use categories of lands throughout the City inadvertently applied with previous map adoption, modify roadway designations of specific roads that inadvertently applied with previous map adoption, and modify roadway designations in accordance with previously approved plans.

LOCATION: Various Locations

APPLICANT: City of Cheyenne Planning and Development Department and the Metropolitan Planning Organization

OWNER: Various Property Owners

ZONING: Various Zoning Districts

PURPOSE: To promote commercial development and account for inadvertent conditions currently contained in the Cheyenne Area Future Land Use Plan and Transportation Map.

PREPARED BY: Mark Christensen, AICP Planner II

RECOMMENDED MOTION:

Move to **approve** the Resolution amending the Land Use category from Open Space and Parks to Community Business for an area of land located southwest of the intersection of Cleveland Ave and U.S. 30, correct land use categories of lands throughout the City inadvertently applied with previous map adoption, modify roadway designations of specific roads that inadvertently applied with previous map adoption, and modify roadway designations in accordance with previously approved plans.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- PlanCheyenne (2016 Community Plan)
- Connect 2045: Cheyenne Area Transportation Master Plan
- Cheyenne Area Future Land Use Plan and Transportation Map

BACKGROUND AND PROPOSED CHANGES:

The Cheyenne Area Future Land Use Plan and Transportation Map was adopted by the Governing Body of the City of Cheyenne on December 14, 2020 with the adoption of *Connect 2045: Transportation Update to PlanCheyenne*. *Connect 2045* serves as the transportation element to *PlanCheyenne*, which is the comprehensive plan for the City of Cheyenne. The other elements of *PlanCheyenne* include the Community Plan, last updated in 2014, and the Parks and Recreation Plan, last updated in 2006. The amendment procedures for *PlanCheyenne* are contained within the Community Plan of 2014.

The Future Land Use Plan and Transportation Map serve to guide the future development of the Cheyenne area, regarding both future uses in the community and the transportation network that serves them. The current plan has been in place for over a year, which prompted the City of Cheyenne and Metropolitan Planning Organization to review the document for proposed changes. Several changes have been proposed as a result of this audit. These changes include both inadvertent applications of land use categories, corrections to right-of-way functional classifications, and land use changes for new development opportunities. Specifically, these changes include:

- Various requests to amend functional classifications contained in the Transportation Map (Attachments 1 and 2)
- A request to change the Land Use category from Open Space and Parks to Community Business for an area of land located southwest of the intersection of Cleveland Ave and U.S. 30, 1720 Cleveland Avenue (Attachment 3)
- A request to change the Land Use category from Mixed-use Commercial Emphasis (MU-C) to Urban Residential (UR) for an area of land roughly located between Omaha Road, Ridge Road, and E. Lincolnway, more precisely shown in the attachment. This is correcting an inadvertent application of the Mixed-Use Commercial Emphasis designation (Attachment 4)

The following analysis of conformance with the review criteria address all three of the requested changes.

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to approve an amendment to the Future Land Use Plan and Transportation Map of the Comprehensive Plan, the Commission must make the following considerations outlined in the 2014 Community Plan (page 18). A detailed analysis is below:

1) BENEFICIAL OR ADDRESSES ISSUES - The proposed amendment is beneficial to the community or addresses issues not foreseen during the planning process.

The corrections to the Transportation Master Plan functional classifications and the amendment to the future land use map from MU-C to UR between Omaha Road, Ridge Road, and E. Lincolnway address issues not foreseen during the planning process. Both corrections address inadvertent applications of designations for future land use and functional classifications that were not identified until after plan adoption. Correcting these will be beneficial to the community to support rezoning applications, promote predictability in development patterns, and identify the types of roads that will need to be built as the community further develops.

The amendment to change the land use category from OS to MU-C for 1720 Cleveland Avenue also address an issue unforeseen during the planning process. During plan adoption, it was unknown that the existing fire station would be relocated. When this occurs, the current site will

likely redevelop with commercial uses. This will be beneficial to the community by providing more development opportunities along a prominent commercial corridor in the community.

The proposed amendments **comply** with review criteria 1.

2) COMPATIBLY - The proposed amendment is compatible with the surrounding area, and the goals and policies of the Plan.

The corrections to the Future Land Use Map and Transportation Master Plan are compatible to the surrounding areas as they address inadvertent applications of functional classifications and future land use designations.

Additionally, the current OS designation for 1720 Cleveland Avenue does not promote redevelopment of the fire station site. The subject property is adjacent to several properties with Mixed-use Commercial and Urban Residential designations. An MU-C designation for the subject property will compliment both the commercial and residential uses in the area. The proposed amendment is consistent with the goals and policies of PlanCheyenne, as discussed in more detail below.

The proposed amendments **comply** with review criteria 2.

3) IMPACT MITIGATION - The proposed amendment will address and mitigate impacts on transportation, services, and facilities.

Transportation:

The transportation network is not expected to be impacted by the future land use map amendments. The Omaha Road MU-C to UR designation is a correction in an area where the transportation network is fully built out. The amendment from OS to CB at 1720 Cleveland Avenue is not expected to have significant transportation impacts. Any impacts at this site will be addressed during the site plan process.

The proposed amendments to the various roads' functional classifications will enhance transportation services in the community. All amendments serve to ensure all current and future roads are built to the correct specifications.

Services:

The proposed changes will not have any adverse effects on provision of services to the impacted areas. Service providers, such as the fire department, will be included in platting and site planning processes to assess service needs. Furthermore, the correction of functional classifications may improve service provision as public improvements will be built to ensure adequate transportation networks.

Facilities:

The proposed Future Land Use Map amendments will likely not require new facilities outside of the development area. The functional classification amendments will require new facilities to be built when development actions occur.

The proposed amendments **comply** with review criteria 3.

- 4) SERVICE PROVISION - The proposed amendment will have minimal effect on service provision, including adequacy or availability of urban facilities and services, and is compatible with existing and planned service provision**

Areas impacted by the Future Land Use Map amendments will have a minimal effect on service provision as they are corrections and a minor amendment to permit commercial uses. The functional classification amendments will improve service provision by “right sizing” the improvements to be made to the transportation network.

The proposed amendments **comply** with review criteria 4.

- 5) ANNEXATION - The proposed amendment does not jeopardize the City’s ability to annex the property.**

The subject properties involved in the Future Land Use Map amendments are all currently within City limits. The amendments to the Transportation Master Plan functional classifications will enhance the ability of areas in the County to annex as the road specifications will be more clearly defined when development actions occur.

The proposed amendments **comply** with review criteria 5.

- 6) URBAN SERVICES AREA - The proposed amendment is consistent with the logical expansion of the Urban Services Area.**

The proposed amendments will not have any impacts on the Urban Services Area.

The proposed amendments **comply** with review criteria 6.

- 7) STRICT ADHERENCE - Strict adherence to the Plan would result in a situation neither intended nor in keeping with other key elements and policies of the Plan.**

Strict adherence to the Plan may result in unintended consequences. The 1720 Cleveland Avenue property will not be able to redevelop under the current OS designation as the current rezoning effort will not meet the UDC criteria for zoning map amendments. Furthermore, the land use designation and functional classification corrections may result in inadequate transportation networks and unintended development that is not compatible with existing conditions.

The proposed amendments **comply** with review criteria 7.

- 8) PUBLIC WELFARE AND CONSISTENCY – The proposed plan amendment will promote the public welfare and will be consistent with the goals and policies of PlanCheyenne and the elements thereof.**

Staff is satisfied that the proposed amendments will not have any adverse effects on public welfare. The corrections will serve to promote adequate transportation in the community while also promoting predictability in development for established neighborhoods. Furthermore, the application accomplishes the following policies contained within PlanCheyenne for the 1720 Cleveland Avenue Future Land Use Map Amendment:

- **Policy 1.1.B. Flexibility to Market Demands:** This goal notes that the Future Land Use Plan does not predetermine all uses on individual parcels and is meant to provide flexibility. The future land use map amendment to MU-C for 1720 Cleveland Avenue will accommodate existing development without being detrimental to existing conditions.
- **Policy 1.4.A. Infill Opportunities:** The future land use map amendment will facilitate infill opportunities for commercial development.

The proposed amendments **comply** with review criteria 8.

CONFORMANCE WITH APPLICABLE PLANS:

The other plan applicable to these amendments is *Connect 2045*. *Connect 2045* is a component of *PlanCheyenne* and is supportive of these amendments.

CONCLUSION:

Staff is satisfied the proposed amendments meet the review criteria outlined in *PlanCheyenne*. The corrections to the Future Land Use Plan and Transportation Master Plan are necessary to correct inadvertent applications of land use categories and functional classifications throughout the City and County. Furthermore, the amendment from OS to MU-C at 1720 Cleveland Avenue will promote infill and redevelopment along a prominent corridor in the community once the existing fire station is relocated.

ALTERNATIVES:

1. Approve the Resolution amending the Future Land Use Plan and Transportation Map as submitted by the applicant and expanded upon by staff (**Staff Recommendation**).
2. Approve the Resolution amending the Future Land Use Plan and Transportation Map subject to modifications.
3. Deny the Resolution to not amend the Future Land Use Plan and Transportation Map. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
4. Postpone the Resolution until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

In the event that the Commission acts contrary to staff's recommendation, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

STAFF RECOMMENDATION:

Staff recommends approval the Resolution amending the Land Use category from Open Space and Parks to Community Business for an area of land located southwest of the intersection of Cleveland Ave and U.S. 30, correct land use categories of lands throughout the City inadvertently applied with previous map adoption, modify roadway designations of specific roads that inadvertently applied with previous map adoption, and modify roadway designations in accordance with previously approved plans.

Metropolitan Planning Organization

MEMO

TO: Charles Bloom, Planning and Development Director
FROM: Tom Mason - Director Cheyenne MPO
DATE: February 8, 2022
SUBJECT: *Connect 2045 – Master Transportation Plan Amendments*

Following a detailed review of the *Master Transportation Plan (MTP)* in *Connect 2045* we have found the following recommended amendments. The MPO Office is preparing an update to the *City's Official Map* which is developed from the newest MTP. Comparisons were made between the *2015 Official Map*, the *2021 Existing Functional Classification Map* and the *Master Transportation Plan* from *Connect 2045*. These detailed comparisons lead us to find the following list of changes we recommend as amendments to the 2020 MTP. Additionally, some of the proposed corrections fill-in gaps on GIS line work.

1. Railroad Road (CO 215) from US 30 to Four Mile. Reclassify from a Minor Collector to a Major Collector to match the Existing Functional Classification.
2. Happy Jack Road (WYO 210) from Logistics Drive to West Urban Boundary. Reclassify from a Major Collector to a Minor Arterial to match the Existing Functional Classification.
3. South Greeley Highway (US 85) from Colorado State Line to Terry Ranch Road. Reclassify from a Minor Arterial to a Principal Arterial to match WYDOT classification on the NHS.
4. Archer Parkway (US 30) from I-80 Service Road to East Bound I-80 on- and off-ramp intersection. Reclassify from a Minor Arterial to a Principal Arterial to match the Existing Functional Classification.
5. Converse from Lincolnway to Pershing. Reclassify from a Principal Arterial to a Minor Arterial to match the Existing Functional Classification.
6. Crane Bluff between Point Bluff and Ogden should be reclassified from a Minor Collector to a local street and removed from MTP, and Crane Bluff between Ogden to Converse is not platted and removed from the MTP.
7. Point Bluff between Plainview and Wild Bluff should be reclassified from a Minor Collector to a local street and removed from the MTP.
8. Mason Way between Converse and Wal Mart parking lot should be reclassified from a local street to a Major Collector to match the Existing Functional Classification.
9. Oakhurst between Evers to Bishop should be reclassified from a Major Collector to a local Street to match the Existing Functional Classification.
10. Evers between Oakhurst to Brittney should be reclassified from a local street to a Minor Collector to match the Existing Functional Classification.

11. Brittney between Evers to Bishop should be reclassified from a local street to a Minor Collector to match the Existing Functional Classification.
12. Klipstein between I-25 Service Road (Bishop) to Telephone Road (CO 120) should be reclassified from a local road to a Minor Collector to match the Existing Functional Classification.
13. Holmes between Ridge and College should be reclassified from a local road to a Minor Collector to match the Existing Functional Classification.
14. Wilderness Trail between Farthing and Dixon should be reclassified from a local street to a Minor Collector to match Existing Functional Classification.
15. Stewart between Westedt and Railroad Road should be reclassified from a local road to a Minor Collector to match Existing Functional Classification.
16. Westedt between Stewart and end of public road should be reclassified from a local road to a Minor Collector to match Existing Functional Classification.
17. Four Mile between Reese to Railroad Road should be reclassified from a local road to a Minor Collector to match Existing Functional Classification.
18. HR Ranch Road between Hales Ranch Road to Prairie Center Circle should be reclassified from a local road to a Minor Collector to match Existing Functional Classification and complete gap.
19. York from College to Carol Ann Way should be reclassified from a local road to a Minor Collector to match Existing Functional Classification.
20. Grand Harmony from Center Drive to Allison Road should be reclassified from a local street to a Minor Collector to match Existing Functional Classification.
21. Sweetgrass Drive between College Drive to High Plains Road should be a Major Collector to match approved PUD.
22. Murray Road between US 85 and Avenue C should be reclassified from local road to a Minor Collector to match Existing Functional Classification.
23. Murray Road between Avenue C and High Plains Road should be reclassified from a Minor Arterial to a Minor Collector to accommodate the approved PUD and to permit access spacing.
24. Artesian between US 85 (SGH) and Avenue C should be reclassified from a Minor Collector to a Major Collector for signal spacing on US 85 (SGH).
25. Nation between US 85 and Avenue C should be reclassified from a local road to a Minor Collector for appropriate signal spacing on US 85.
26. Loving Trail between Wisent Road and High Plains Road as per Bison Business Park 1st and 2nd final plats classified as Major Collector and matching Existing Functional Classification.
27. Dayshia Lane between US 85 and Loving Trail as per Bison Business Park 1st and 2nd final plats classified as Major Collector and to match Existing Functional Classification.
28. Wisent Road between US 85 and east end of plat as per Bison Business Park 2nd Filing Plat as a Major Collector and to match Existing Functional Classification.

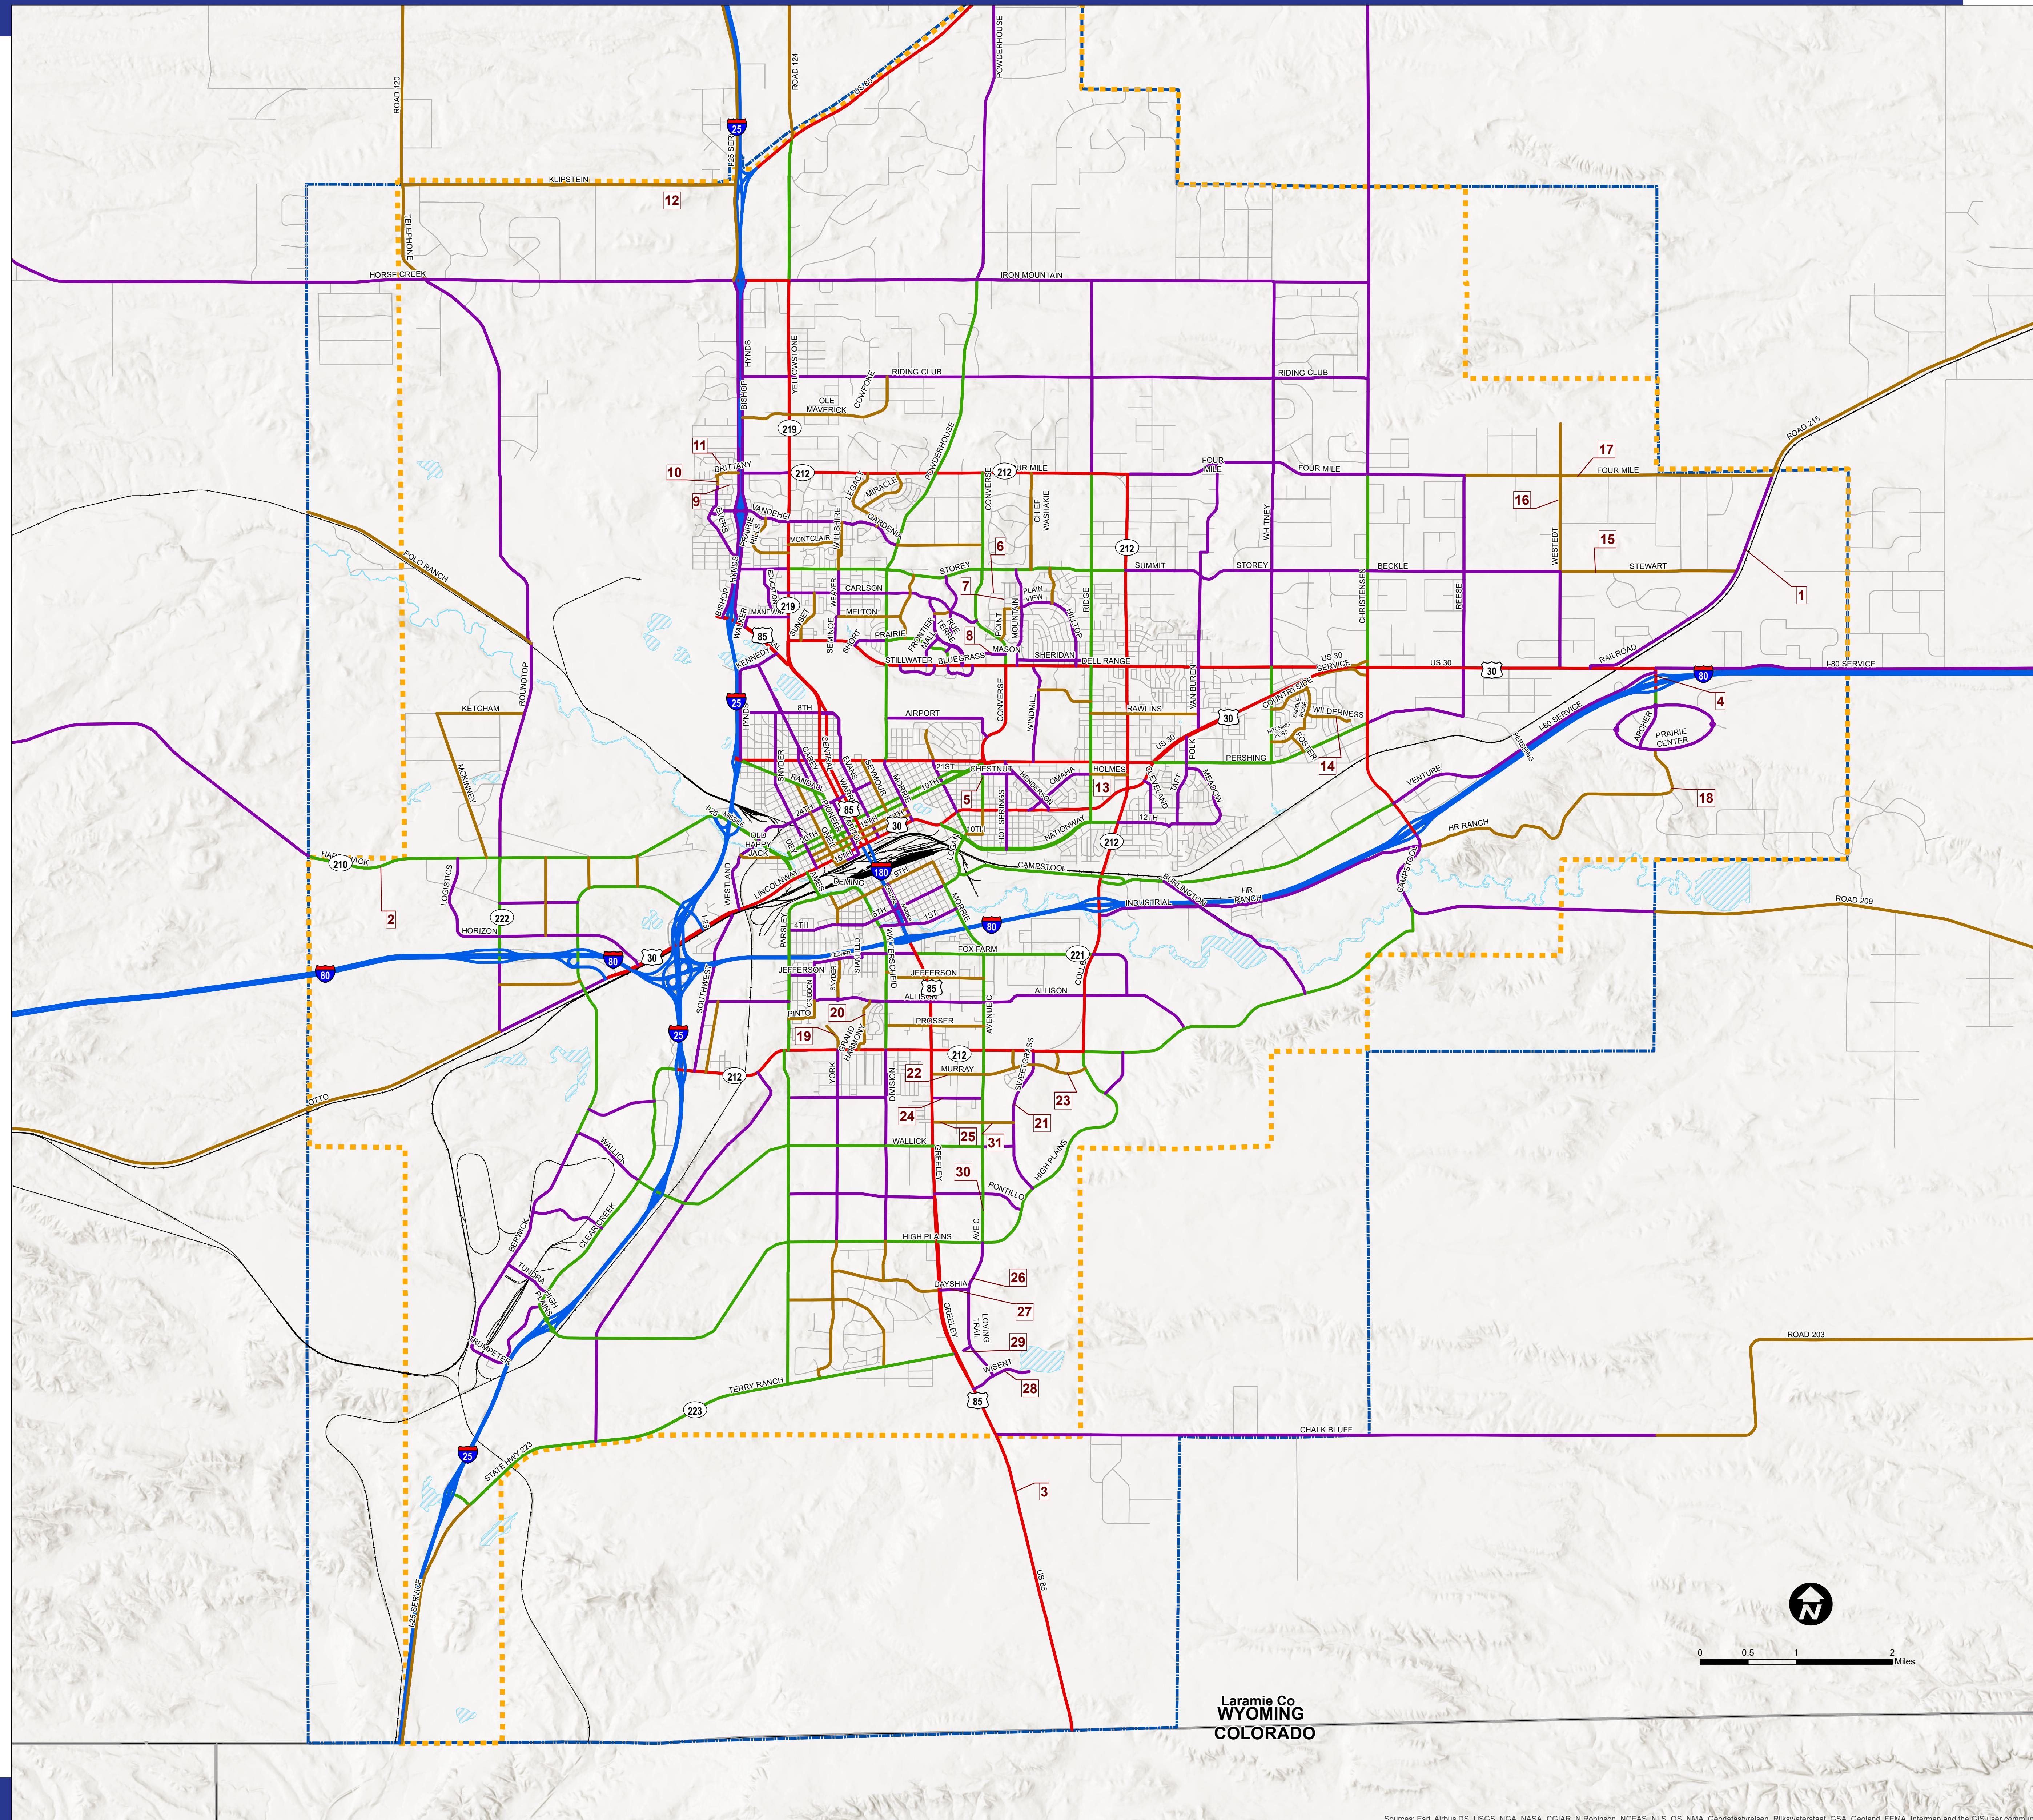

- 29.** East Terry Ranch Road extension from WYDOT Port of Entry east property line to Loving Trail as per Bison Business Park 2nd Filing as a Major Collector to match plat and MTP.
- 30.** Avenue C between College Drive to High Plains Road should be reclassified from a Major Collector to a Minor Arterial to match Sweetgrass PUD.
- 31.** Nation between Avenue C and Sweetgrass should be reclassified from a Major Collector to a Minor Collector to match amendment #25 and the Sweetgrass PUD.
