
MEMORANDUM

TO: Mayor Patrick Collins, and City Council
FROM: TJ Barttelbort, Purchasing Manager *TJB*
DATE: May 4, 2022
SUBJECT: Request to Purchase Used Brush Truck Style Vehicle, for the City of Cheyenne, Cheyenne Fire Rescue Department

BACKGROUND INFORMATION ABOUT PURPOSE OF PROPOSED PURCHASE:

From Cheyenne Fire Rescue Department:

In light of Boulder County and many other municipalities throughout the Western United States, the need for quick response/attack is crucial during these wind driven events. We have seen a dramatic increase in wind driven events and brush fires within municipalities and Cheyenne. Increased development in areas that are otherwise prairie and open in nature are prime locations for these type of events. Places like Whitney Ranch, Saddle Ridge, Sweetgrass, Swan Ranch, Bison Business Park and many others to name a few. Time is crucial and if we are capable of a quick response, we have a better opportunity to prevent major loss. We will still be reliant upon our mutual aid partners for all of these types of events and already have agreements established.

An investment in alternate vehicles (i.e. brush trucks and/or mini pumpers) for these types of events is quite worth the investment. Current losses within Boulder and Boulder County have exceeded 513 million dollars. The use of the vehicle would be cross staffed when we are dispatched to these events.

PROCUREMENT INFORMATION & PROCESS:

The City of Cheyenne, Cheyenne Fire Rescue Department, is requesting spending authority in an amount not-to-exceed \$150,000.00 for the purchase of a used Brush Truck. Due to the current market for used vehicles and equipment, timing is of the essence when a used piece of equipment becomes available on the used vehicle market.

In accordance with the City of Cheyenne Purchasing Policy, "Selection will be made only from vehicles or equipment meeting or exceeding the minimum requirements set forth by the department/division. If the amount exceeds \$35,000.00 the expenditure must be approved by the Governing Body."

This is a preemptive request for approval by the Governing Body, to grant spending authority when a used vehicle that meets all of the minimum specifications is located & identified. In order to ensure that the City can make an offer on a vehicle in a timely manner, without placing a Consideration of Award on City Council Agenda (3-4 Week Process), the Cheyenne Fire Rescue

Department is requesting this spending authority in advance of beginning the search for a vehicle that meets the needs of the Department. This will provide the City the ability to expeditiously secure a used vehicle when a suitable unit is located. In coordination with the City of Cheyenne Fleet Maintenance Division, minimum specifications have been established for this purchase and they are attached to this memorandum.

It may be necessary for City Fleet Maintenance & Cheyenne Fire Rescue Staff to travel to the location of any vehicle(s) that meet the minimum specifications in order to allow staff the opportunity to test and inspect the unit.

The purpose for this Request to Purchase Used Brush Truck Style Vehicle, is based on the significant cost savings by selecting a used vehicle, over building a new unit. Comparable new units are currently being sold for \$395,000.00 to \$458,000.00.

This Request to Purchase is being concurrently advertised in the Wyoming Tribune Eagle, in accordance with the intent of Wyoming Statute § 15-1-113.

Funding: 032-16-1640-41-43106 (Special Purpose Option Tax – 2021 6th Penny Ballot)

REQUEST TO PURCHASE OVER \$35,000.00

Request to Purchase Used Brush Truck Style Vehicle. The City of Cheyenne, Cheyenne Fire Rescue Department, is requesting spending authority in an amount not-to-exceed \$150,000.00 for the purchase of a used Brush Truck. This is a preemptive request for approval by the Governing Body, to grant spending authority when a used vehicle that meets all of the minimum specifications is located & identified.

This will be reviewed by the City Council Finance Committee on May 16, 2022 and voted on at the May 23, 2022 City Council meeting.
