Please explain your interest in serving on this
Board/Committee/Commission

As of young adult with a disability, I feel that each and every one of us deserves to live the best life possible. To me, living the best life possible is dependent on community involvement and memorable experiences. In my experience, these memorable experiences come from attending a Symphony concert at the Cheyenne Civic Center, being able to take a walk in your neighborhood, and being able to dine at local restaurants. As an individual with a disability, there have been several times where the walk in my neighborhood was not enjoyable because there was no curb cut out for me to access with my wheelchair. Some restaurants I have been unable to access due to lack of accessibility. Limited transportation makes participating in community events difficult for those who can't drive, I have experienced this many times. Cheyenne is a great community, however for those of us with a disability sometimes it's great attributes go unseen. I feel that every Cheyenne resident should have the opportunity to embrace our community to the fullest by living and working among community members. No resident with a disability should be denied the opportunities the Cheyenne Community presents. I believe that with my experience with living with a disability in Cheyenne, I can bring valuable knowledge to the improvements that need to be made in order for Cheyenne residents to enjoy Cheyenne. No resident in any Community should have to struggle to enjoy their community and by serving on the mayor's Council for people with disabilities, I feel that I can help in that struggle for Cheyenne community members.
