

MEMORANDUM

TO: Governing Body, City of Cheyenne
FROM: Renee Smith, Grants Manager
DATE: SEPTEMBER 19, 2022
SUBJECT: RESOLUTION TO ACCEPT FEMA BRIC GRANT – Crow Creek

The City of Cheyenne was awarded a U.S. Department of Homeland Security Federal Emergency Management Agency FY 2021 Building Resilient Infrastructure Communities grant in the amount of \$180,000.

Grant funds will be used to complete project scoping design work for the **Cheyenne Crow Creek 19th Street Crossing Improvement Project**. This project scoping effort/design will evaluate and identify a feasible, constructible crossing improvement for the 19th Street crossing within the corporate limits of Cheyenne.

The project's scope-of-work will include the following tasks: Field surveys and reconnaissance for collection and evaluation of pertinent data needed for hydraulic modeling of design alternatives including both bridge and culvert improvements, and digital topographic data development for use in the hydraulic and geotechnical modeling efforts. The project also includes the development a working hydraulic model to evaluate and design alternatives.

The total project cost is \$240,000, designating \$60,000 matching funds from the 1% Drainage Fund.

Grant Narrative: The 19th Street crossing has been recommended for improvements since at least 1988 when it was discussed in the Crow Creek Drainage Master Study. The crossing lacks adequate capacity and overtops for moderate flood events, inundating the economically disadvantaged neighborhood to the south and impacting the traveling public. In the community's 1988 Crow Creek Drainage Master Plan, flood problems were classified as life-safety hazards and/or property damage hazards. The City is interested in improving the 19th Street crossing and eliminating overtopping to reduce the flood risk for approximately 50 residential and commercial properties.
