MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council
From: Seth Lloyd
Subject: UDC-22-00248-02 / Lake Minnehaha III Final Plat
Date: September 12, 2022

Background:

The item for consideration is a *Final Plat*. This is approved by Resolution.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral 9/12/2022
- Public Services Committee 9/20/2022
- Consideration 9/26/2022

Planning Commission Recommendation:

The Planning Commission heard this item at their September 6, 2022 meeting and recommended the Governing Body approve this application.

The Planning Commission Staff report is attached and has not been changed.

Related Items:

APPROVED

By Stefanie Boster at 10:35 am, Sep 07, 2022

RESOLUTION NO. _____

ENTITLED: “A RESOLUTION AUTHORIZING THE MAYOR AND THE CITY CLERK TO SIGN A FINAL PLAT FOR LAKE MINNEHAHA III, A REPLAT OF LOTS 1 AND 1½, BLOCK 18, RESUBDIVISION OF LAKE MINNEHAHA, CITY OF CHEYENNE, LARAMIE COUNTY, WYOMING (LOCATED SOUTHWEST OF THE INTERSECTION OF 12TH STREET AND CARBON AVENUE).”

WHEREAS, Results Real Estate, LLC have subdivided said land in accordance with the statutes in such cases made and provided; and

WHEREAS, Results Real Estate, LLC the owners of the above described land, has caused a subdivision plat of said land to be made, acknowledged, and certified, particularly describing the lots, block, easements, and right-of-way; and

WHEREAS, the above described subdivision plat has been presented to the City of Cheyenne Planning Commission for consideration; the Planning Commission has recommended that said plat be approved by the Governing Body; and the plat has been duly executed by the Development Office; and

NOW, THEREFORE BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, THAT the subdivision described as Lake Minnehaha III, Cheyenne, Wyoming, be and the same hereby is approved and confirmed as presented, and that the Mayor and the City Clerk be and are hereby authorized, empowered, and directed to execute said plat, when Community Facility Fees have been paid in full.

PRESENTED, READ AND ADOPTED THIS _____ DAY OF _____, 2022.

(SEAL)
ATTEST:

KRISTINA F. JONES, CITY CLERK

PATRICK COLLINS, MAYOR

CITY OF CHEYENNE PLANNING COMMISSION SEPTEMBER 6, 2022 STAFF REPORT

FILE: UDC-22-00248-02: Lake Minnehaha III Plat (Expedited Review)

REQUEST: A plat to separate two houses on one lot into two lots.

LOCATION: South of 12th Street, East of Logan Avenue

APPLICANT: Kirk Johanson

OWNER: Kirk Johanson

ZONING: MR Medium-density Residential

PROPOSED ZONE: NR-2 Neighborhood Residential – Medium Density

PURPOSE: To separate two houses into two individually sellable lots.

PREPARED BY: Seth Lloyd, Planner II – Development

RECOMMENDED MOTION:

Move to **approve** the Lake Minnehaha III Expedited Preliminary Plat, advancing the Final Plat to the Governing Body.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.1.2 Preliminary Plat Approval
- UDC 2.1.3 Final Plat Approval
- UDC Article 4 Subdivisions
- UDC Article 5 Zoning Regulations
- PlanCheyenne

BACKGROUND:

The applicant is requesting approval of a plat to separate two houses on one lot into two individually sellable properties. It is Staff's understanding the properties already have completely separate utilities and addresses. The NR-2 zone allows the smallest type of single family detached housing, therefore the property is going through a concurrent zone change. The lots also do not meet a few standards as currently developed. As such, the lots have received variances to allow the existing conditions to continue with the new lot line – should the properties be raised, new development would be required to meet standards or receive new variances.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning	Land Use
Subject Site	Urban Residential	MR Medium-density Residential	Single-family residential (2 houses)
North	Urban Residential	MR Medium-density Residential	Single-family residential
South	Urban Residential	MR Medium-density Residential	Single-family residential
East	Urban Residential	MR Medium-density Residential	Single-family residential
West	Urban Residential	MR Medium-density Residential	Vacant

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Preliminary Plat, the Commission must make the following findings required in UDC 2.1.2.d – a detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.1.2.d.1)

The future land use map within PlanCheyenne identifies this area as developing with a mix of residential development, and the proposed plat in this zoning district would be compatible with this objective. PlanCheyenne supports the use of existing infrastructure and timely provision of

services (including emergency and education services). This development is proposed in an area which has largely existing infrastructure and no expansion of infrastructure is necessary. This development is in conformance with the principles and future land uses identified in PlanCheyenne. The property is within the Urban Service Boundary and has access to all utilities.

The application **complies** with this review criterion.

2) The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities. (UDC 2.1.2.d.2)

The proposed application is adding a property line on an existing block. The surrounding area is largely previously developed and this would be considered an infill project. Reutilizing properties for infill development is an important urban planning principle, and the proposed plat would not have an undue influence on the surrounding properties. The built form is not anticipated to change, the only difference is that the two houses will be under separate ownership.

The application **complies** with this review criterion.

3) The division of land meets the purposes, intent, and all applicable standards in Article 4. (UDC 2.1.2.d.3)

Community Facility Fees (4.2):

Subdivisions which do not increase the total number of lots are exempt from plat fees, and this property was originally platted in 1890 with two lots (the original lots are skinny lots extending all the way north and south). This plat is essentially reconfiguring the two lots and is exempt from these fees.

Transportation Network (4.3):

This plat is occurring within an area of the community which has been previously developed. The existing block and street network largely meet applicable standards.

Open Space (4.4):

Open space is required at 750sqft per unit or 8% of the gross development area, whichever is less. However, due to the size of the property, plat-level open space is not required.

Required Improvements (4.5):

This plat appears to be able to provide all required utilities to the lots within this development.

Public Safety Fees (4.6):

The applicant proposes to upgrade the existing space, therefore, it is anticipated that the remodel on the property will qualify for an exception from this fee.

The application **complies** with this review criterion.

- 4) **Any phasing proposed in the application is clearly indicated and demonstrates a logical and well-planned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned. (UDC 2.1.2.d.4)**

No phasing is proposed with this project.

Review criterion **not applicable**.

- 5) **The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts. (UDC 2.1.2.d.5)**

Drainage:

A Drainage Worksheet was submitted and reviewed. There were no concerns with drainage at the plat level for the project as presented.

Traffic:

A Traffic Worksheet was submitted and reviewed. There were no concerns with traffic at the plat level for the project as presented.

The application **complies** with this review criterion.

- 6) **Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements. (UDC 2.1.2.d.6)**

The proposed plat proposes two lots. The lots are intended to be buildable lots in the proposed zone district. With applicable variances, the lots' existing conditions are expected to continue.

The application **complies** with this review criterion.

- 7) **All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance. (UDC 2.1.2.d.7)**

The plat does not propose any lots subject to this criterion.

Review criterion **not applicable**.

- 8) **The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property. (UDC 2.1.2.d.8)**

Properties adjacent to this plat are zoned MR and designated Urban Residential. While zoned MR, the surrounding properties have more of an NR-2 style of development pattern (with smaller blocks, alley or side-loaded garages, and smaller lots). There are multiple locations in the neighborhood with a similar division of land (taken without a platting action).

The application **complies** with this review criterion.

9) The application is not harmful to the public health, safety, and welfare. (UDC 2.1.2.d.9)

City staff is satisfied that this proposed plat would not adversely affect the public health, safety, or general welfare.

The application **complies** with this review criterion.

10) Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description. (UDC 2.1.2.d.10)

Remainder lots are not proposed with this plat.

Review criterion **not applicable**.

11) The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan. (UDC 2.1.3.d.1)

The Final Plat submitted with the application is substantially similar to the Preliminary Plat submitted.

The application **complies** with this review criterion.

12) The application meets any conditions or modifications of the approved preliminary plat. (UDC 2.1.3.d.2)

Through the review process and application of the Preliminary Plat, Staff does not recommend any conditions to the plat.

The application **complies** with this review criterion.

13) The application meets the purposes, intent, and applicable standards of Article 4. (UDC 2.1.3.d.3)

As a concurrent Preliminary and Final Plat application, this Final Plat review criterion is covered by the equivalent Preliminary Plat review criterion (subsection 3 above).

The application **complies** with this review criterion.

CONFORMANCE WITH APPLICABLE PLANS:

The project is located in an area covered by the following plans:

- PlanCheyenne

Conformance with PlanCheyenne is covered by review criterion 1.

STAFF REVIEW:

Through the review process, comments were received regarding the following issues:

1. Minor technical corrections.

CONCLUSION:

Staff analysis is that the application meets the review criteria and therefore recommends approval of the expedited plat application as submitted by the applicant.

The area this plat is proposed in an existing residential neighborhood, with similar divisions of land throughout. The built environment is not proposed to substantively change, as two homes already exist on the subject property. The proposed plat is consistent with this development pattern.

ALTERNATIVES:

1. Recommend approval of the expedited preliminary plat, forwarding the Final Plat to the Governing Body. **(Staff Recommendation)**
2. Recommend approval of the preliminary plat with conditions and that a final plat addressing the conditions of approval be prepared and presented to the Governing Body.
3. Recommend approval of the preliminary plat as submitted by the applicant and forward the preliminary plat to the Governing Body.
4. Recommend approval of the preliminary plat subject to staff's recommended conditions and forward the preliminary plat to the Governing Body.
5. Recommend denial of the preliminary plat based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
6. Postpone the project until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

The Planning Commission may modify staff's recommended conditions, delete conditions, add conditions, or decide contrary to staff's recommendation. In the event conditions are modified, the conditions shall relate to applicable review criteria. In the event that the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

STAFF RECOMMENDATION:

Staff recommends approval of the expedited Preliminary Plat, advancing the Final Plat to the Governing Body.
